

S²TEM Centers SC

Solutions in Science, Technology, Engineering & Mathematics Education

Using Microsoft Tools for Remote Learning

Get ready for fun!

In this K - 12 teachers' course:

Learn how to Navigate Microsoft Teams and use 365 apps to create:

- Engaging activities that promote social and emotional learning and celebrate multiple cultures
- Critical thinking problems that are fun for students
- Asynchronous and Synchronous learning activities

Provide your students the opportunity to:

- Practice and implement the knowledge characteristics and skills from the Profile of the SC Graduate
- Collaborate with peers on creating and implementing lessons using OneNote
- Engage in critical thinking involving computational thinking and STEM processes

Synchronous Dates @ 4:00—5:00 PM:

Monday	November 9, 2020
Monday	November 16, 2020
Monday	November 23, 2020
Monday	November 30, 2020
Monday	December 7, 2020

Unless otherwise stated, sessions are in Zoom.

What prerequisites are there for this course?

Teachers of all content and grade levels from 2nd—12th grade

It is necessary that you have and can use the following tools:

- A computer, a laptop, or a device with a keyboard and a mouse; one that can access Microsoft 365 and Internet access.

Here is what some of our participants are saying:

- “Enjoyed class! Learned a lot!”
- “The facilitators offered various levels of support as needed to assure each participant left feeling accomplished and ready to implement some aspect of the course in her classroom.”
